

BOSNIAN:

QAES Europe GmbH je njemačka kompanija osnovana u augustu 2024. godine, sa sjedištem, upravom i strateškim centrom u Berlinu. Naš fokus je na razvoju, planiranju, implementaciji i dugoročnom servisiranju inteligentnih rješenja za skladištenje energije (BESS) za evropsko tržište. Tehničke specifikacije, upravljanje projektima, prodaja, postprodajna podrška i održavanje koordiniraju se centralno iz Njemačke. Naša vrijednost se prvenstveno ostvaruje kroz istraživanje i razvoj, tehničko savjetovanje, podršku korisnicima i koordinaciju servisnih aktivnosti. Iako smo mlada kompanija, radimo s visoko kvalifikovanim timom i gradimo mrežu partnera za prodaju, instalaciju i servis širom Evrope. Kroz integraciju visokokvalitetnih komponenti, uključujući i one iz Njemačke i Evrope, aktivno doprinosimo energetskej tranziciji – made in Germany.

ENGLISH:

QAES Europe GmbH is a German company founded in August 2024, with its headquarters, management, and strategic center based in Berlin. Our focus is on the development, planning, implementation, and long-term servicing of intelligent energy storage solutions (BESS) for the European market. All technical specifications, project management, sales, after-sales, and maintenance activities are centrally coordinated from Germany. Our value creation is primarily concentrated in the areas of research & development, technical consulting, customer support, and service coordination. Despite being a young company, we operate with a highly qualified core team and are currently building a Europe-wide network of distribution, installation, and service partners. By integrating high-quality components, including from German and European manufacturers, we aim to contribute actively to the energy transition – made in Germany.
